Don, I have the Sales agreement for our Assessor's Plexis – however we are no longer receiving support from Plexis – Our assessor is not here today so can't much more info. I will sending a copy of the sales agreement that I have. Also our GIS was originally with Schneider and although we still work with them – we now own our GIS system and is just a reference table for myself and the assessor. I have contacted Low for a copy of my contract with them and Kevin Low will get back with on this. I will be mailing all info so can you give me your address. I have Charlie Bell address – just need yours.

As looked back in my information – I had received the letter and on 9-28-07 had sent it up to the IT department for them to do. Obviously it never got done and that is just as much my fault for not following up with Dave to make it had been completed. The IT department takes care of all of our maintenance etc agreements so just assumed he had everything in his office. Being Auditor for 11 months you would think that I would know the meaning of "assuming" anything. Please provide your address and I will mail today. Thanks Jackie

*Call from Don 12/4/07 in reference to 9/26/07
Letter. Received & taken to IT Dept. -*

So Sorry for the delay.
